Neither Urbana Research & Consulting, Inc. nor any of its employees, makes any guarantees or assumes any legal liability or responsibility for: 1) the accuracy, completeness, or usefulness of any information, product, or process disclosed in the document or any recommendations derived from such information, or 2) represents that its use would not infringe privately owned rights.

Introduction

This community profile provides basic information about the Targeted Urban Areas (TUAs) and is meant to be used as a simple tool to understand the area's demographics, education levels, and statistics on housing, income, and labor force. This profile attempts to provide a "snap-shot" of the TUA communities in the year 2000 and to establish the base for future demographic trend analysis. The data represented in this profile is compiled from the 2000 US Census.

Methodology

The Task Force on Urban Economic Revitalization (Task Force) focuses its economic improvement efforts, specifically in 20 areas in Miami Dade County. The following geographical areas, known as TUAs are listed below:

TUA Neighborhoods

- Carol City
- Coconut Grove
- Florida City
- Goulds
- Leisure City
- Liberty City
- Little Haiti
- Model City/Brownsville
- Naranja
- Opa Locka
- Overtown
- Perrine
- Princeton
- Richmond Heights
- South Miami
- Southwest Homestead
- West Little River

TUA Corridors

- Northwest 27th Avenue Corridor
- Northwest 183rd Street Corridor

Pursuant to County Ordinance 97-33, the Miami-Dade County Empowerment Zone (EZ) neighborhoods and its developable sites also became TUAs. The locations are as follows:

EZ Neighborhoods

(East/West Corridor)

- Airport
- Allapattah
- CBD and Seaport
- Wynwood
- Little Havana
- Melrose
- Civic Center
- Overtown

(Other EZ Neighborhood Areas)

- Liberty City/Model City
- Homestead/Florida City

EZ Developable Sites

- Homestead/ Florida City
- Northside/Poinciana
- Opa-Locka Airport

The TUA Community Profiles presented in this report are divided into two sections: 1) Comparative tables and; 2) Individual Tables for each TUA community.

To obtain an accurate portrait of TUA communities, the data was analyzed using Geographic Information Systems (GIS) technology. GIS enabled the research team to select the census block groups that best fit within the TUA boundaries then extract 2000 US Census data for each of the selected block groups.

Study Limitations

Before reviewing the rest of the document, it is important to note the following limitations of the profiles.

- 1) As previously explained, the census block groups do not exactly fall within the TUA boundaries. Therefore, some of the data provided may contain additional information for the area immediately adjacent to the TUA community. This is particularly true for the TUA neighborhoods and TUA corridors, whose boundaries were drawn based on geographic considerations and not with census boundaries in mind. Maps are provided in the report that depicts how the US Census blocks and the TUA communities overlap.
- 2) Comparison between the TUA Neighborhoods, TUA Corridors, EZ Neighborhoods, and the EZ Developable Sites are not always recommended because the boundaries of the communities may overlap. For this same reason, a sum of the data across communities is also inadvisable because certain communities may be double counted due to overlaps in boundaries.

TUA COMMUNITY PROFILES

SECTION I: COMPARATIVE TABLES

- I. General Demographic Characteristics
- II. Selected Social and Economic Characteristics
- III. Selected Household and Housing Unit Characteristics

I. Comparative Table: General Demographic Characteristics

Miami-Dade County								
	Population	Race & Ethnicity			Age			
		White	Black	Hispanic-Latino	19 and Under	20 to 44	45 to 59	60 and Over
Miami -Dade	2,253,362	23.7%	20.3%	57.3%	27.5%	37.5%	17.3%	17.6%

TUA Neighborhoods								
	Population	Race & Ethnicity			Age			
		White	Black	Hispanic-Latino	19 and Under	20 to 44	45 to 59	60 and Over

Owner-Occupied Units**	H7	TENURE [3]	Occupied housing units	Owner occupied	H007002
Renter-Occupied Units**	H7	TENURE [3]	Occupied housing units	Renter occupied	H007003
Vacant Units	H6	OCCUPANCY STATUS [3]	Housing units	Vacant	H006003

* In communities with multiple census blocks, and thus multiple medians, the following formula was used to determined the community's median value for family income and household income.

[Sum of (Median value * Total population) for each community]
 ----- = Average
 Total population

**The universe for these criteris in are occupied units. However, please note that "total housing units" was used to determine all percentages for owner and renter occupied units.
